PRODUCT

MINIMAL WALL MOUNT LIGHT

SHFFELLBL002

DESCRIPTION

This Minimal Wall Mount Light mounts to the wall on a structured back plate with a brushed nickel finish and a slim rectangular glass enclosure that projects forward from the wall, with a decorative scrollwork element visible through the clear glass panel. It suits boutique hotel lobby accent wall positions, hospitality breakfast area feature wall lighting, and common area wall lighting installations where a glass-enclosed wall mount with a visible interior detail brings a considered, design-present character to the lobby or lounge wall.
