PRODUCT

CURVED ARM HANGING SHADE DESK LAMP

SHFFELDL005

DESCRIPTION

This Curved Arm Hanging Shade Desk Lamp sits on a weighted flat disc base with a brushed nickel finish and a single curved arc arm that extends the shade outward and downward over the desk surface. At 22 inches tall with a 14-inch arm reach and a hanging drum shade at the arc end, it suits hotel guestroom writing desks, boutique hospitality suite work surfaces, and business-class room desk positions where a task-focused curved arm lamp positions the shade directly over the active work area.
