PRODUCT

LAYERED RING FLUSH MOUNT LIGHT

SHFFELHL006

DESCRIPTION

This Layered Ring Flush Mount Light mounts directly to the ceiling on a flat canopy with a brushed pewter finish and a round disc body with multiple concentric ring layers visible at the fixture perimeter, emitting light downward through the diffused center panel. At 14 inches in diameter with a 4-inch ceiling profile, it suits contemporary hotel corridor ceilings, modern hospitality entrance area ceiling positions, and design-led property hallway lighting installations where a layered ring flush mount brings a structured, multi-detail ceiling fixture character to the corridor or entrance overhead.
