PRODUCT

LOW PROFILE DISC CEILING LIGHT

SHFFELHL005

DESCRIPTION

This Low Profile Disc Ceiling Light mounts directly to the ceiling on a flat back plate with a white finish and an ultra-slim disc body that sits against the ceiling surface at the minimum possible profile with a diffused panel face emitting light downward. At 15 inches in diameter with a 2-inch ceiling profile, it suits modern hotel corridor ceilings, minimalist hospitality entrance area positions, and low-ceiling property hallway lighting installations where an ultra-low profile disc ceiling light delivers a flat, recessed-looking ceiling fixture in spaces where ceiling clearance or a recessed look is the priority.
