PRODUCT

ANGLED SHADE SCONCE LIGHT

SHFFELSL008

DESCRIPTION

This Angled Shade Sconce Light mounts to the wall on a bracket arm with a dark finish and a shade fixed at a forward downward angle that directs light toward a reading or work surface below. At 14 inches tall with a 10-inch angled shade, it suits hotel guest room bedside wall positions, hospitality suite desk wall lighting, and reading wall installations where a directional angled shade puts the light output precisely where the guest needs it.
