PRODUCT

CANTILEVER SHADE SCONCE LIGHT

SHFFELSL001

DESCRIPTION

This Cantilever Shade Sconce Light mounts to the wall on a back plate with a dark matte finish and a cantilevered arm that extends the shade outward and downward from the wall surface. At 12 inches of wall projection with an 8-inch shade, it suits hotel guest room bedside wall positions, boutique hospitality suite reading walls, and corridor installations where a directional wall sconce with an extended arm positions light toward a specific use point.
