SH SARA HOSPITALITY

PRODUCT

SINGLE ROD COLUMN SCONCE LIGHT

SHFFELSL002

DESCRIPTION

This Single Rod Column Sconce Light mounts to the wall with a back plate in a polished finish and two parallel vertical rods rising from the mount to a shared shade at the top. At 18 inches tall with a 10-inch shade, it works well in hotel lobby wall positions, boutique hospitality corridor feature walls, and suite accent lighting installations where a twin-rod sconce brings a sculptural, design-present fixture to the wall.
