PRODUCT

TAPERED TOWER SCONCE LIGHT

SHFFELSL006

DESCRIPTION

This Tapered Tower Sconce Light mounts to the wall on a back plate with a dark matte finish and a tapered vertical body that narrows from the base toward the top where a narrow shade sits. At 18 inches tall, it suits contemporary hotel suite feature walls, boutique hospitality corridor accent sconce positions, and design-led guest room wall installations where a tapered column sconce brings a vertical architectural form to the wall fixture position.
