PRODUCT

FROSTED TUBE BAR VANITY LIGHT

SHFFELVL004

DESCRIPTION

This Frosted Tube Bar Vanity Light mounts horizontally above the mirror on a slim wall plate with a brushed nickel finish and a single long frosted glass tube running the full width of the fixture, emitting a continuous band of soft light along its full length. At 24 inches wide with a single continuous frosted tube element, it suits minimalist hotel guestroom bathroom vanity walls, contemporary hospitality suite mirror positions, and clean-line property bathroom lighting installations where a single-element frosted tube vanity light delivers an even, continuous light output across the full mirror width without the visual interruption of multiple shade units.
