PRODUCT

RECTANGULAR SLOPED BASIN SINK

SH-104

DESCRIPTION

This Rectangular Sloped Basin Sink is formed from a solid surface material with a smooth matte finish and a rectangular bowl with a gently sloped interior base that directs water toward the drain. At 20 inches wide and 14 inches front to back, it suits modern hotel bathroom vanity positions, contemporary hospitality suite basin installations, and commercial bathroom fit-outs where a clean rectangular basin with a directional drain slope is the fixture requirement.
