## SOFT EDGE SQUARE SINK

SH-108

**DESCRIPTION**

This Soft Edge Square Sink is formed from a solid surface material with a smooth matte finish and a square bowl with softened rounded edges on a countertop drop-in installation. At 17 by 17 inches and 6 inches deep, it suits modern hotel guest bathrooms, contemporary hospitality suite basin positions, and commercial bathroom renovations where a square basin with softened edges sits between the clean geometry of a hard-edged square and the softness of a round.
