SH SARA HOSPITALITY

PRODUCT

INTEGRATED GRANITE TUB SURROUND

SHFFETSS006

DESCRIPTION

This Integrated Tub Surround combines the tub basin and the three-wall surround panel system in a single, factory-fitted unit where the tub and wall panels are engineered to connect and seal as one continuous installation. Covering the full alcove wall height and integrating directly with the tub basin at the deck line, it suits hotel guestroom new-build bathroom installations, boutique hospitality suite bathroom fit-outs, and upscale property bathroom construction projects where an integrated tub and surround unit delivers a single-piece or close-fit installation with no separate tub-to-wall joint to seal or maintain.
