PRODUCT

SEAMLESS PANEL QUARTZ SHOWER SURROUND

SHFFETSS007

DESCRIPTION

This Seamless Panel Shower Surround installs across the shower walls with large-format panels that span each wall surface without mid-wall panel joints or visible seams, giving the shower enclosure a continuous, uninterrupted wall surface from corner to corner and floor to ceiling. Covering the full height and width of each shower wall in a single panel or minimal-joint large format, it suits hotel guestroom premium shower installations, boutique hospitality suite bathroom fit-outs, and upscale property shower renovations where a seamless wall surface finish in the shower delivers the cleanest possible shower enclosure interior with no panel joints to collect moisture or require maintenance.
