PRODUCT

WALK-IN QUARTZ SHOWER SURROUND

SHFFETSS008

DESCRIPTION

This Enclosed Walk-In Shower Surround installs across the walls of a walk-in shower enclosure with panel coverage on all enclosed wall surfaces and a finished open-entry edge at the walk-in opening, providing complete wall surface coverage for a walk-in shower configuration without a door or curtain at the entry. Covering all shower walls at full height with a smooth panel surface and a clean finished edge at the open entry, it suits hotel guestroom walk-in shower installations, boutique hospitality suite open-entry shower fit-outs, and upscale property bathroom renovations where a full-wall panel surround for a doorless walk-in shower delivers a clean, complete shower enclosure interior with a finished open entry.
